

MATILDA

Your resource for intensive longitudinal
research

Peer-reviewed educational articles to help you align theory, measurement,
and analysis in your study of processes with ILD

Work in Progress

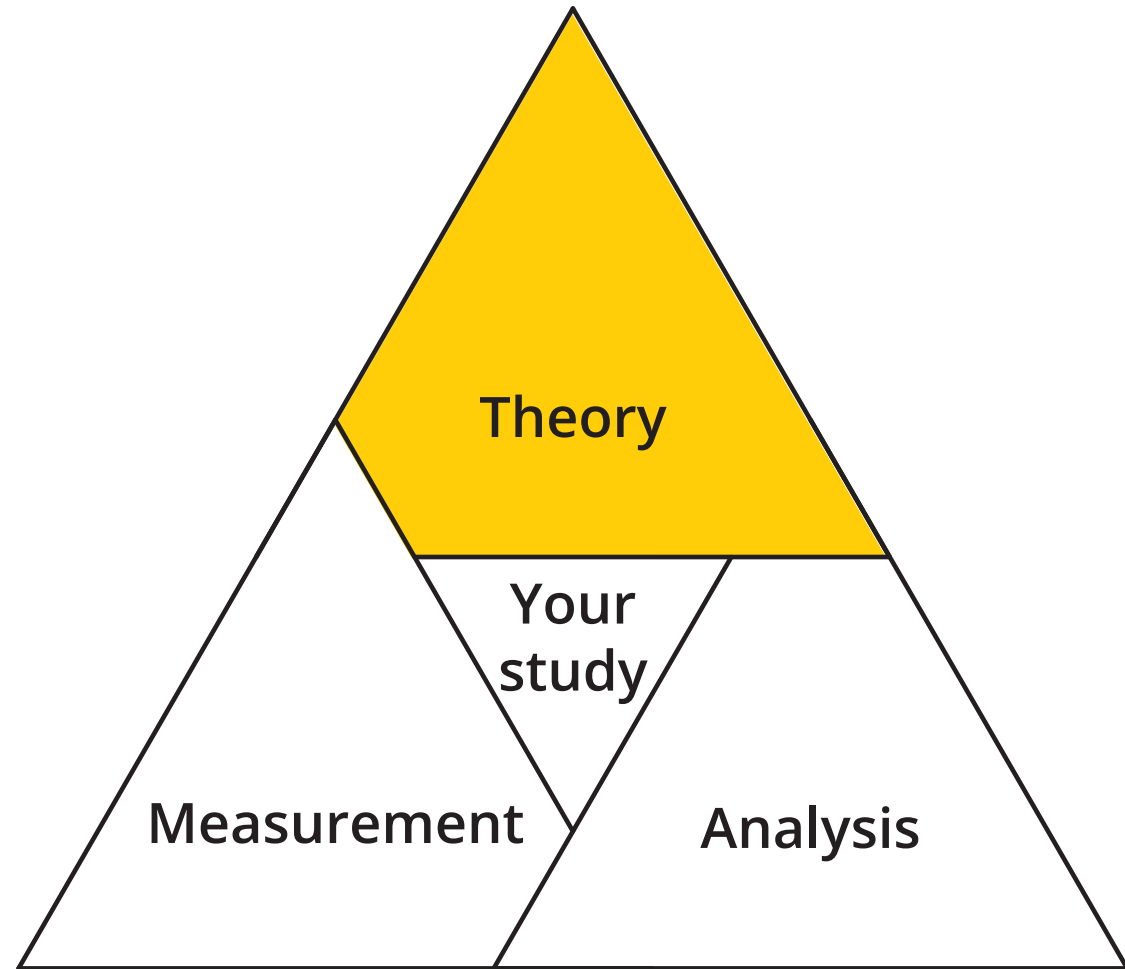

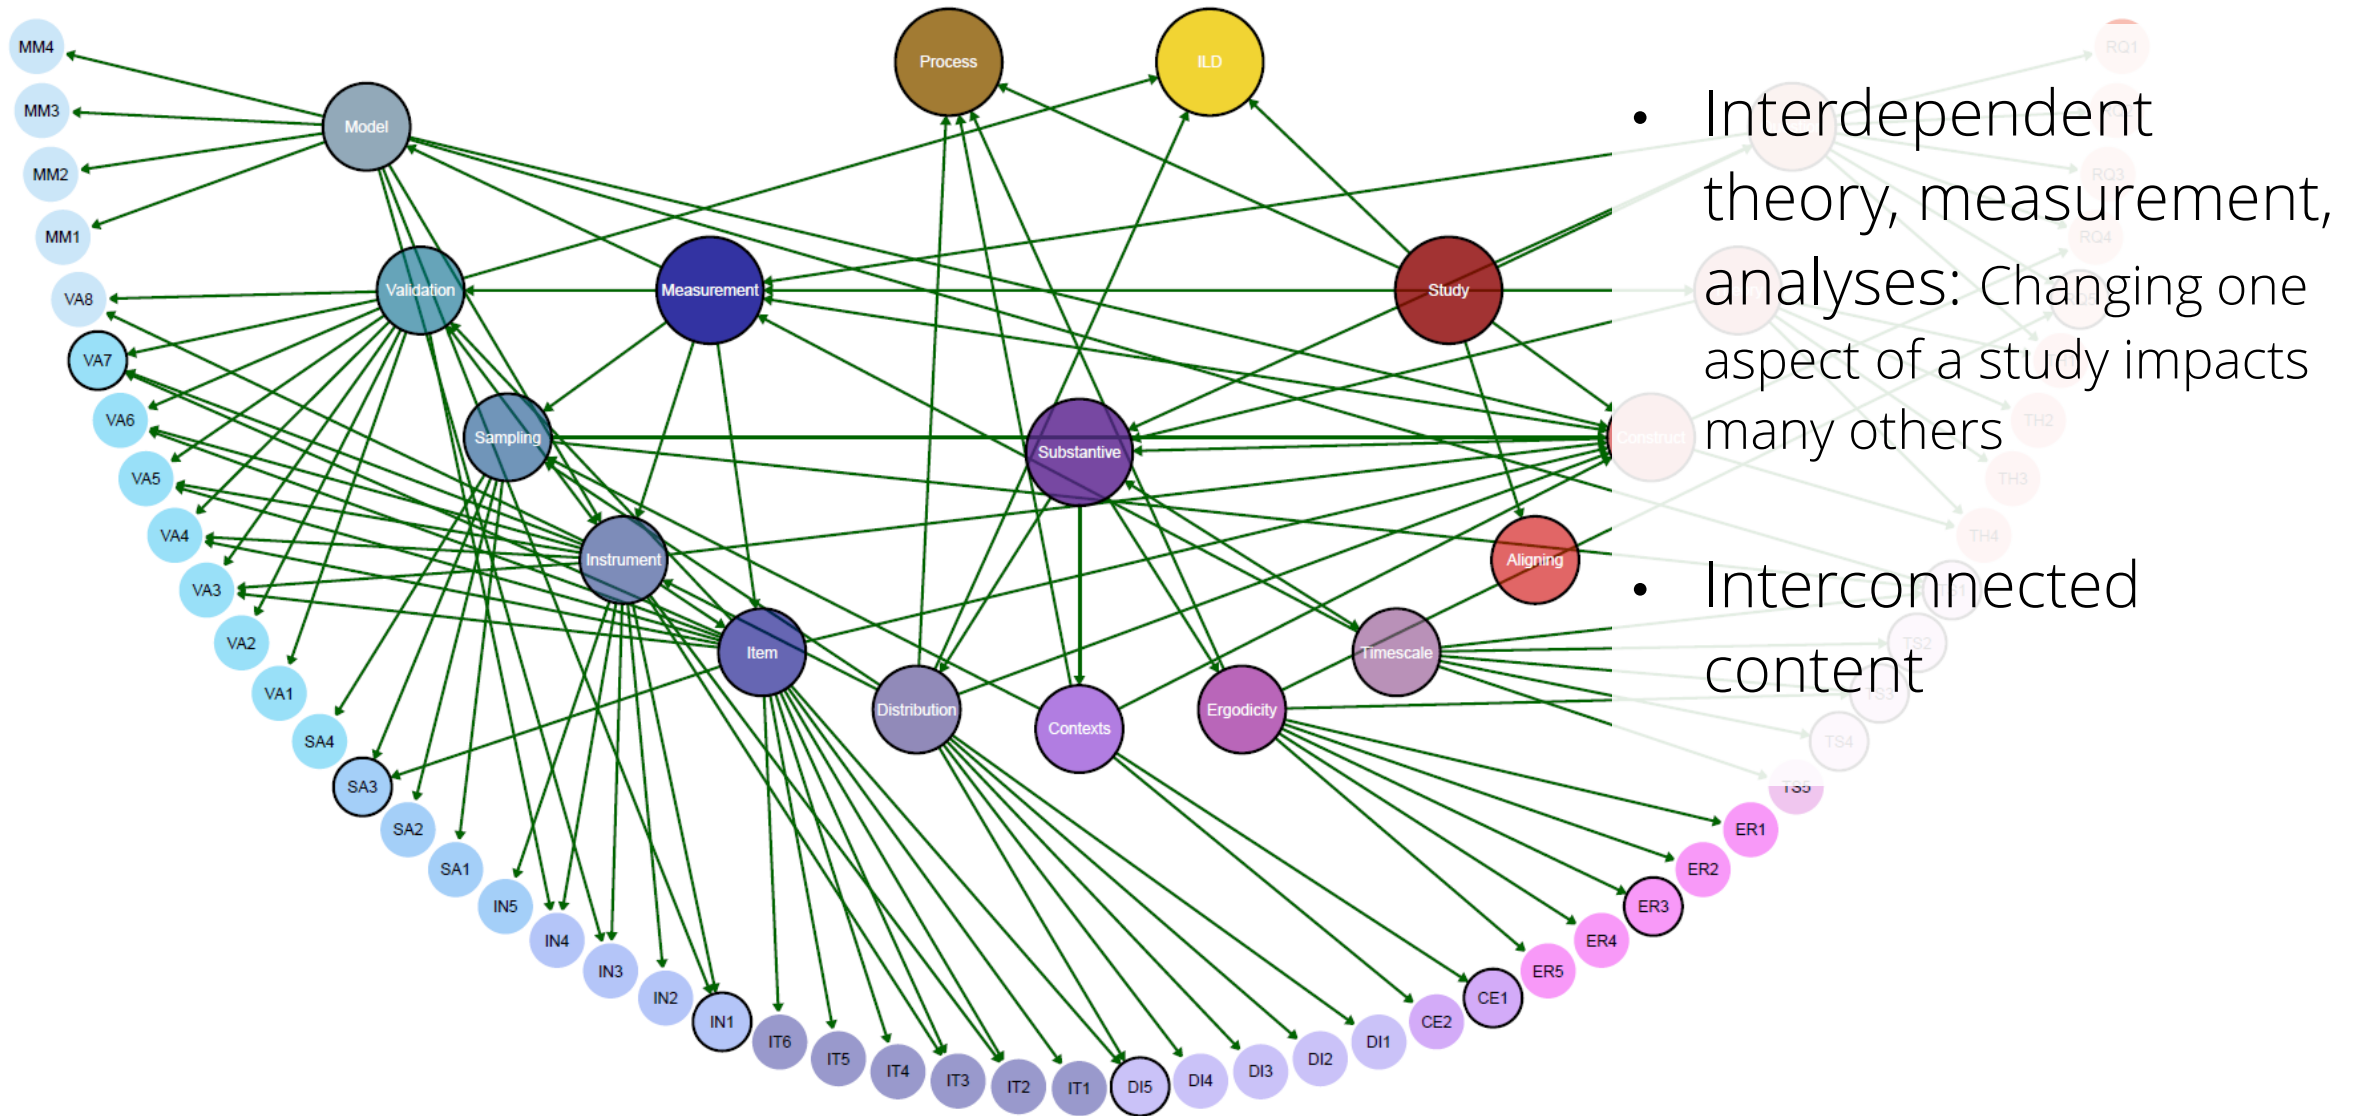

Dynamic Modeling Lab
Methodology & Statistics department
Utrecht University

Emphasis on theory

- Space to share insights on theoretical implications of methodological choices
- Support theory driven choices
- Emphasize aligning study goals, theory, measurement and analysis

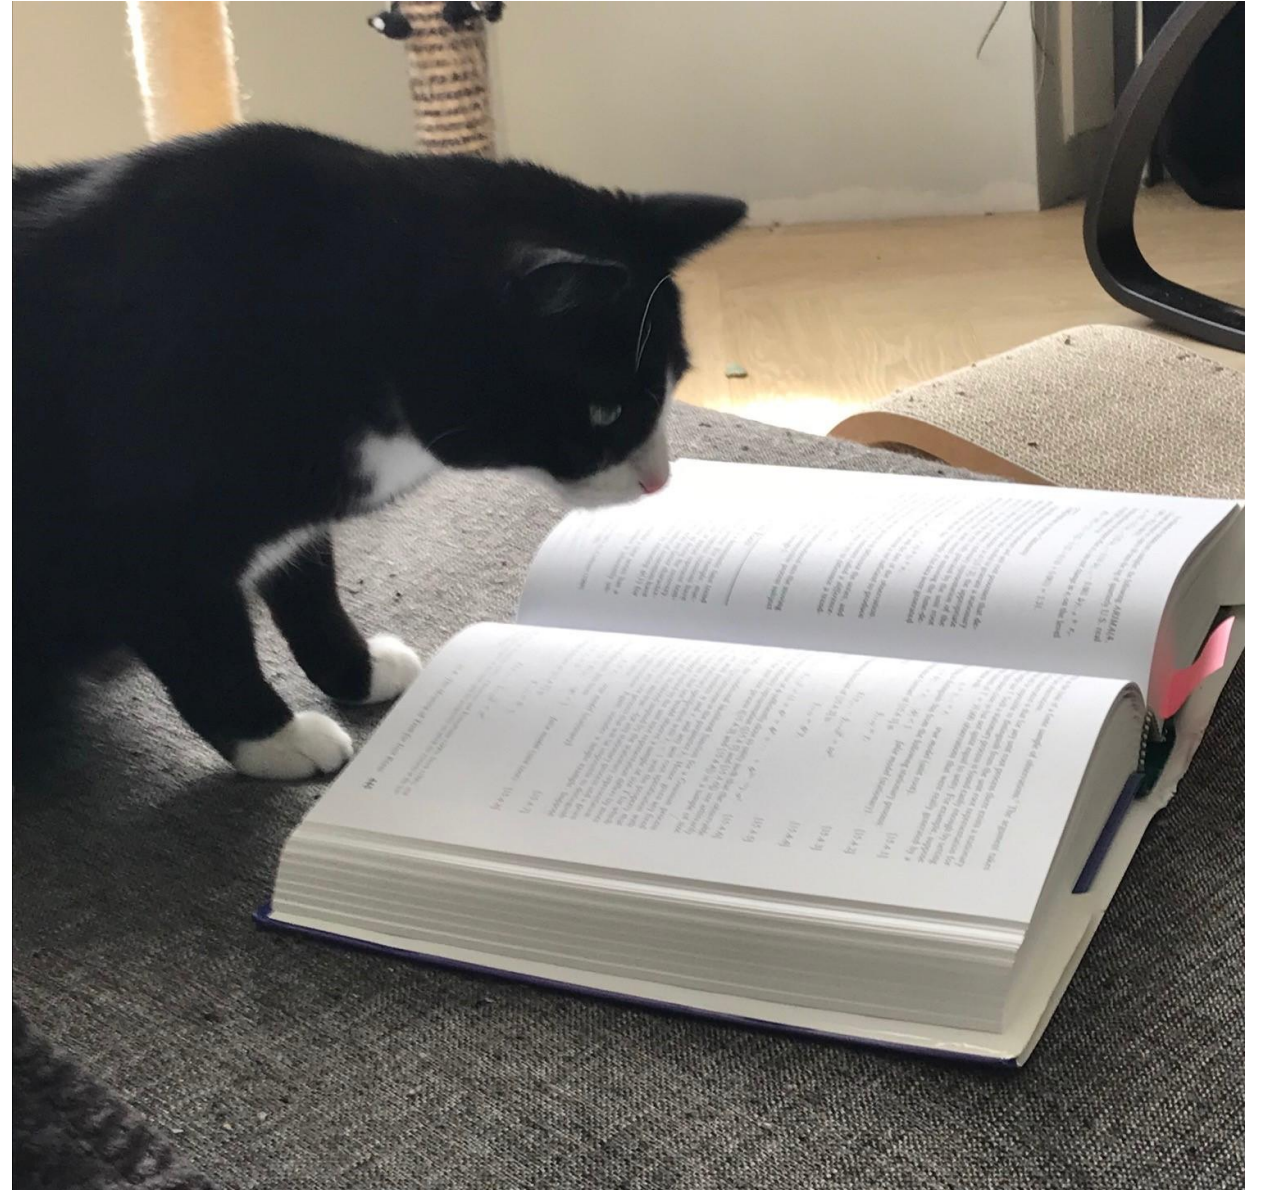

Interconnected

Educational

- Food for thought
- No one-size-fits all solutions in science
- Empower researchers

Noémi's cat reading Hamilton's "Time Series Analysis".

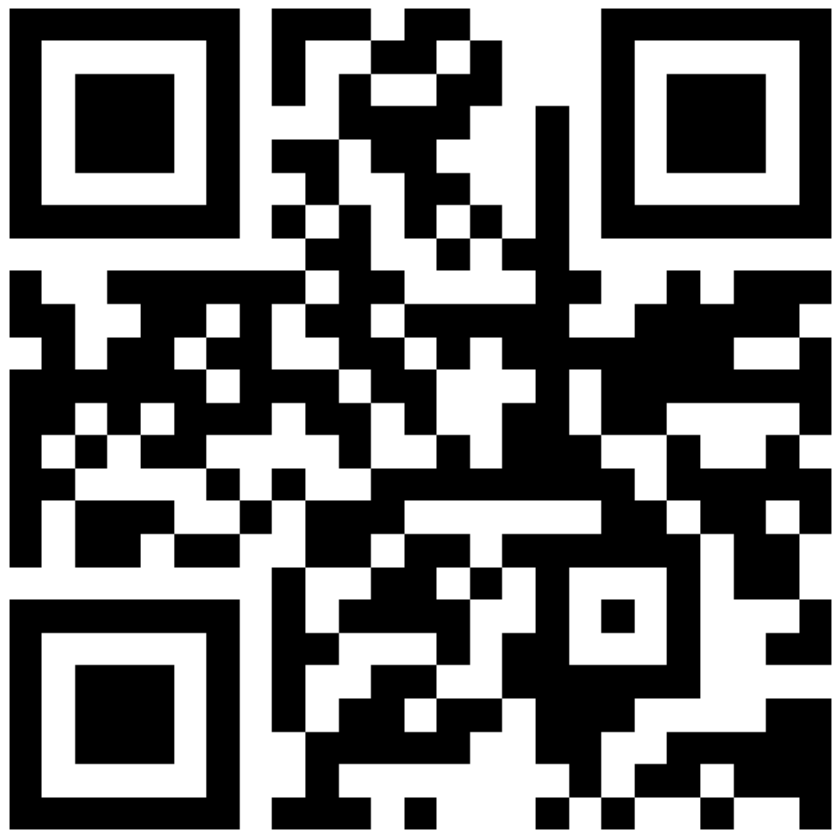

Accessible

- Readable but citeable
- Peer reviewed articles
 - Expert reviews on content
 - Accessibility reviews

Open

- Open access
- Open peer reviews
- Academic owned
- Academic led
